# JOHN B. WOODS . . . . . CERTIFIED TREE SEEDS OF THE PACIFIC COAST

CABLE ADDRESS **WOODSEED**PHONE - **4-3535**P. O. BOX 647, **SALEM, OREGON**

Dear Inquirer:

The crop of seeds of native trees in the Pacific Northwest is the poorest ever. We are utterly unable to fill orders for large quantities and so we are offering small lots for home planting—to make the small supply go farther and try to obtain at least the cost of our collections. We pay postage anywhere in the U. S. A.

This price list is good only until November 10th. By that time we certainly shall be sold out. Send your orders at once—minimum \$3.50. Fall planting of trees is best.

Abies amabilis - Silver Fir (a big tree, with white bark)	1 oz.	\$.50
Abies concolor - Mt. White Fir (a medium size tree)	1 oz.	.50

Arbutus Menziesii - Madrona (spectacular tree)	2 oz.	.50
Fraxinus Oregona - Oregon Ash (water loving tree)	2 oz.	.50
Rhamnus purshiana - Cascara (small tree)	2 oz.	.50
Umbellularia Californica - Oregon Myrtle (lovely)	2 oz.	.50

Quantities quoted represent several hundred to several thousand seeds. This is the only list we shall put out for the 1952-1953 crop.

Yours faithfully
